Art

Look at the examples of the paintings provided. The artists have used tones of red to give the impression of warmth. Using these ideas, can you replicate, or create a picture of your choice using warm colours

Science—Properties of Materials

Can you create an investigation into what materials are the most absorbent? Using different items from home, think about how you would test their absorbency. Can you conduct a fair test and then present your results and create a conclusion based on what you have found out.

Humanities—We are looking at how Crime and Punishment has changed over the centuries. Choose a period of time we have looked at i.e. Romans, Saxons, Victorians etc and compare how they dealt with crime compared to today. You could present this however you choose, poster, fact file, power point - be creative with your choice!
