Due Wed 10th  
April

20 minutes reading per day  
Spelling practice  
Reading Comprehension

Homework sheet  
TTRS  
Arithmetic Paper

### Science

It is the 30th anniversary of British Science Week, so we would like children to research how things have changed in the past 30 years! They can produce a poster, information page or ppt showing what new inventions and discoveries have been made during this time.

### DT

Look at how cams mechanisms work. Label the diagram using these useful words: cams, follower, frame structure, axle and crank. Explain how the mechanism works.

### Humanities

This term in humanities we are studying Geography and exploring how features of the UK have changed over time. Children need to choose an area of the UK coastline to research and produce an informative fact file / poster / ppt etc, with illustrations showing how this part of the coast has changed over time. I.e. has it formed bays and beaches, has the headland changed to form caves, arches and stacks?
