Humanities

In Humanities we are learning about the Anglo - Saxons and the Vikings. You need to pretend you are an Anglo Saxon from this time and give yourself an identity, chose which of the seven kingdoms you belong to. Design your own shield and explain why you've chosen this design.'

Science—Healthy Lifestyles

This term we are looking at Healthy Lifestyles in Science. The children will look at the different systems in the body, including a focus on the circulatory system. We would like children to show their understanding of the heart by creating a model/information page of the heart, labelling the different parts and their functions.

Art/DT

Year 5&6: This term year 5&6 are developing their skills of observational drawing using tone and a range of sketching techniques.

Artist focus: Paul Cezanne- still life.

Homework: Children have a sheet to work on and they have to use line, layers and cross-hatching to add light, medium and dark areas to an outline of the hand. As an extension, children can push their observational skills further by attempting to draw the outline of their own hand and then add cross-hatching to make it appear realistic.
