Wider Curriculum

Humanities

Our topic this half term for Humanities is comparing Northern Italy to our own locality. For your homework you could share how you have cooked an Italian dish, or explore the country's geography, history or culture. You could also research interesting facts about for example the Italian flag, volcanoes, and landscapes. We look forward to seeing how creative you can be!

Science

We are continuing with States of Matter for this term. There are three states of matter that we have been learning about: solids, liquids & gases. However, there are some substances that are harder to classify. We would like you to explore these substances known as non-Newtonian fluids. You could research what substances are non-Newtonian, why they are tricky to classify and what properties they have. You could also have a go at making some at home!

ART

Research the work of Angela Haseltine Pozzi and create a mood board that illustrates some of her work. Outline why she created this type of art and comment on what you like about her work.
