Adam Dunkley
Staff Governor

I attended University in Sheffield where I achieved my bachelor's in science degree in Physical Education.

Becoming a teacher for me was about sharing my passion for sport and education and making a difference to the next generation.

I joined the team here at St. Michael's in 2011 after spending a short amount of time working in Secondary Education. I have taught Physical Education here ever since. I am also the Attendance Lead at the school and the Learning Values lead.

The majority of my career has been spent supporting and working with the children and families of St. Michael's and Bedworth. I feel well placed and well-informed in extending that support from the classroom to the Governing Body.

I am proud to be part of our Governing Body and to have the opportunity to help shape and continue to strengthen our school and community.
